A new Time Table was submitted by the contractors but had not been approved of when the Almanac was printed.

MAILS Per PENINSULAR & ORIENTAL CO.'S STEAMERS (Via Melbourne).

At the time of going to press the Time Table for 1882 had not reached Brisbane. It was not, however, expected there would be any alteration.

Mails leave Melbourne every Fortnight from January 4, 1882, arriving in London every second Tuesday, and arrive in Melbourne from London every second Wednesday from Jan. 11, 1882.

For Brisbane the time of Arrival and Departure will be about five days later and earlier respectively.

INDICATIONS OF THE WEATHER.

Some reliance can be placed on the following symptoms as regards the probable weather.

FINE WEATHER.—A gradually rising barometer, a grey morning sky, a red sunset, a light blue mid-day sky, and dew at any time.

RAINY WEATHER.—A steadily falling barometer, a red sunrise, a pale yellow sky, low soft-looking dingy clouds, unusual clearness of the air and distinctness of the landscape, much twinkling of the stars, and low flight of birds.

WIND AND STORMY WEATHER.—Sudden changes of the barometer, bright yellow sunset with rosy tints in the east, rapidly driving scud and deep blue sky.

JANUARY corresponds to July in Great Britain. It is usually one of the hottest months of the year, and is marked by frequent thunderstorms. In January, 1881, the weather was much warmer than usual during this month, the mean shade temperature, 79° 6', being 1° 7' over the average of this month for the last ten years, and 2° 1' over the average of the previous three years. The highest reading in shade, 108° 0', was on the 2nd; the lowest on grass, 60°, was on the morning

of the 15th. The mean barometric reading, 29° 877 inches, was 0° 051 inches under the average of the month for the last ten years; the highest, 30° 142 inches, was at 9 p.m. on the 8th, and the lowest 29° 469, at 3 p.m. on the 2nd. Rain fell on 13 days; the total fall, 5° 75 inches, being 0° 94 inches under the average of the month for the previous ten years. The maximum fall, during 24 hours, 2° 72 inches, was on the 11th.

GARDEN, ORCHARD, AND FARM CALENDAR FOR JANUARY.

Written expressly for Slater's Almanac, by Albert John Hookings.

GARDEN AND ORCHARD.—Dig deeply all unoccupied beds, turning in all such garden refuse as will add to the fertility of the soil by its decay. Heavy soil is much improved in texture when thrown up roughly and exposed to the influence of the summer's sun, being rendered more friable. Fork between the rows of vegetables when the soil has become hard after heavy showers. Water vegetables freely in dry weather, giving occasional dressings of liquid manure. In favourable weather sow French beans, brocoli, cabbage, carrot, cauliflower, celery, mustard, cress, lettuce, endive, okra, peas, parsnip, parsley, radish, salsify, scorzonera, prickly spinach, turnips, Brussels sprouts, and a few cucumber, vegetable marrow, and melon seeds, for late crop. Plant out cauliflowers, cabbages, etc., laying a leaf over each plant to protect it from the sun for a day or two. Gather herbs for drying, also onions, garlic, and eschalots, as the tops die down. Peach, apple, and other trees should be

formed during summer by disabbling with the finger and thumb when the shoots are ill placed, and by nipping off the ends of those which are too long or over vigorous. Vines should be tied as they grow to protect them from injury by high winds, and in doing this be careful to arrange the foliage, so as to shelter the fruit from the direct rays of the sun. Gather grapes, peaches, and apples, as they ripen. Vigorous shoots of the Isabella grapes may still be pruned to produce a second crop. Vines layered now are likely to make good roots before winter. Cuttings of any valuable new sort which it is wished to multiply quickly, should be put in during this month in favorable weather. Carefully remove suckers from vines and fruit trees.

FIELD.—Destroy weeds before they seed; break up land in preparation for future crops; sow Cape barley, rye, and oats, for green fodder, and maize for a late crop. Keep growing crops clean.

FEBRUARY corresponds to August in Great Britain; the weather is generally excessively hot and sultry with a humid atmosphere. In February, 1881, the weather was a little warmer than usual during this month, the mean shade temperature, 77° 3', being 0° 2' over the average of this month for the previous ten years, and 0° 3' under the previous three years. The highest reading in shade, 96° 5', was on the 13th; the lowest on grass, 63° 0', was on the morning of the

27th. The mean barometric reading, 29.989 inches, was 0.083 inches over the average of the month for the last ten years; the highest, 30.159 inches was at 9 a.m. on the 16th; and the lowest, 29.641 inches, at 9 p.m. on the 6th. Rain fell on 14 days; the total fall, 3.66 inches, being 4.95 inches under the average of the previous ten years. The greatest fall in 24 hours, 1.12 inches, was on the 6th. The total rainfall for the year 1881, up to 28th February, was 9.41 inches on 27 days.

GARDEN, ORCHARD, AND FARM CALENDAR FOR FEBRUARY.

GARDEN AND ORCHARD.—This should be an active month. Dig roughly all unoccupied beds which have been previously trenched, adding well decomposed manure. Transplant cabbages, Brussels sprouts, cauliflowers, celery, etc. Sow French beans, beet, Brussels sprouts, carrot, cauliflower, celery, mustard, cress, lettuce, radish, prickly spinach, endive, onion, peas, parsnip, and turnip. Plant out strawberries in ground previously prepared by being trenched and thoroughly manured. Mulch the melon and cucumber holes with a dressing of long stable manure; form the surface between the holes so as to catch water during thunder showers. In very dry weather, when the plants appear to suffer, give ten to twenty gallons of water in the evening to each hole, so that they may be thoroughly soaked, applying the water so that it may get into the soil where the roots are. Gather seeds as they ripen. Cucumbers, melons, French beans, etc., should be gone over daily, and gathered as soon

as they are ready, whether they are required or not; for if left on to perfect their seeds the plants cease to be productive. The fruit should be thinned from Hockings' canvase and greening apples, and the branches carefully propped, lest the trees be broken by its weight. Finish budding trees which are intended to stand over until spring. Collect leaf mould for use when planting fruit trees during the approaching winter. Loosen ties of budded trees. Tie up loose shoots of vines, extending them out to the sun; if the points are gathered up to a stake, see that the foliage is not bruised or injured.

FIELD.—Continue to prepare land, ploughing it deeply. Lucerne may be sown in clean well-ploughed deep soil. Vetches or tares, Cape barley, and sorghum should be sown for green food for stock. In sheltered and warm positions 90 day maize may be sown. Early potatoes may be planted whole. Keep the land clean, and hill up maize.

MARCH corresponds to September in Great Britain, and begins to show a pleasant decrease in temperature. In March, 1881, the weather was warmer than usual, the mean shade temperature, 75°·6, being 0°·5 over the average of this month for the previous ten years, and 0°·9 deg. under the previous three years. The highest reading in shade, 94°·0, was on the 16th; the lowest on grass, 52°·0, was on the morning of the 6th. The mean barometric readings were above

GARDEN, ORCHARD, AND FARM CALENDAR FOR MARCH.

GARDEN AND ORCHARD.—If previous instructions have been followed, the seed beds will be full of young plants, and there will be sufficient land well dug and manured ready to receive them. Plant out cabbages, cauliflowers, Brussels sprouts, celery, etc., in favourable weather, choosing the largest and finest plants. Keep the beds free of weeds by frequent and deep hoeing. Give asparagus beds a dressing of salt. Transplant eschallots. Sow English beans, French beans, beet, carrot, mustard, and cress, celery, lettuce, endive, leek, onion, peas, parsnip, radish, prickly spinach, turnip, couve tronchuda, savoy, etc. Make note of fruit trees, or vines that have been sickly or unproductive during the season, so that they may be manured, syringed, scrubbed, pruned, or grubbed out as the case may demand. An unprofitable, unsightly, or inferior tree should not be allowed to cumber the ground. No crops should be grown near fruit trees.

the average of the month; the highest, 30·314 inches, was at 9 a.m. on the 20th, and the lowest, 29°·681 inches, at 3 p.m. on the 9th. Rain fell on 18 days; the total fall, 4·44 inches, being 0·71 inches under the average of the month for ten years, and 0·16 under the previous three years. The greatest fall in 24 hours, 0·79 inches, was on the 28th. The total amount of rain that fell in the year 1881, up to 31st March, was 13·85 inches, on 45 days.

Orange trees are often killed by digging about them. All land intended to be planted with fruit trees during the approaching season should be trenched and manured this month, if not already done. All stiff or retentive soils should be carefully drained six inches deeper than they are trenched, regardless of the inclination of the surface. It should be remembered that the roots of the trees will be under the surface where the water will be retained, unless drainage be provided. Orange trees with the shoots in a state of rest may be transplanted this month.

FIELD.—Sow lucerne, clover, rye grass, prairie grass, oats, barley, wheat, vetches or tares, and sorghum. Sow main crops of potatoes. Hoe early potatoes; gather maize as it ripens: cut tobacco leaves as they arrive at maturity. Sow mangold and Swede turnips for winter food for stock.]

APRIL corresponds to October in Great Britain; cool weather is now setting in, and nights are frequently chilly. In April, 1881, the weather was much warmer than usual during the month, the mean shade temperature, 72°·1, being 1°·3 over the average of this month for the previous ten years, and 0°·7 over the previous three years. The highest reading in shade, 93°·0, was on the 2nd; the lowest on grass, 52°·0, was on the morning of the 16th. The highest barometric reading, 30·340 inches, was at 9 a.m. on the

20th, and the lowest, 29·930 inches, at 3 p.m. on the 4th. The mean barometric reading, 30·149 inches, was 0·071 inches above the average of the month for the previous ten years. Rain fell on 8 days; the total fall, 2·17 inches, being 1·79 inches under the average of the month for the previous ten years, and 3·16 inches under the previous three years. The greatest fall in 24 hours, 0·60 inches, was on the 2nd. The total amount of rain which fell in the year 1881, up to 30th April, was 16·02 inches, on 53 days.

GARDEN, ORCHARD, AND FARM CALENDAR FOR APRIL.

GARDEN AND ORCHARD.—Keep down weeds by continual hoeing. Thin out plants that are overcrowded. Divide and plant out pot herbs, giving water if requisite, until they are established. Plant out cabbages, cauliflowers, etc., in favorable weather. Sow English beans, mustard, and cress, lettuce, endive, leek, onions, peas, radish, etc., for succession. Sow hardy annual flower seeds. Evergreen shrubs, roses, and bulbs, may be planted. Where practicable the transplanting of fruit trees should now be proceeded with; and, if done with care, they will soon emit new roots, and be established in their positions before the final fall of the leaf. This applies especially to evergreen fruit trees, such as lemons, oranges, dates, mangoes, loquats, olives, tamarinds, etc. In transplanting take care that a sufficiently large hole is dug to allow of the roots having ample room; if any of the roots have been

bruised or broken in the moving, let the damaged portions be cleanly cut off with a sharp knife; do not set the transplanted shrub or tree any lower in the new ground than in its original place. For some days it is well to shade it, either by matting on sticks or any other contrivance that may answer the desired purpose, taking care that the wind does not blow it down. Water should also be freely applied till the tree has settled itself in its new position. Prop up bananas which have heavy bunches of fruit, as they are apt to be blown down by the winds now prevailing.

FIELD.—Sow vetches, lucerne, wheat, barley, oats, mangold, and Swede turnips. Gather sorghum and imphee as they ripen, or the birds will either consume or scatter it. Plough land for future crops. Cut and house tobacco as soon as it arrives at maturity.

MAY corresponds to November in Great Britain. The Queensland winter may now be considered as having begun. Weather generally cool and enjoyable. In May, 1881, the weather was much warmer than usual, the mean shade temperature, 68° 2', being 2° 8' over the average of this month for the previous ten years, and 3° 6' over the previous three years. The highest reading in shade, 87° 0', was on the 9th; the lowest on grass, 47° 0', was on the morning of the 31st. The highest barometric reading, 30° 408 inches, was at

9 a.m. on the 1st, and the lowest, 29° 806 inches, at 3 p.m. on the 31st. The mean barometric reading 30° 168 inches, was 0° 109 over the average of the month. Rain fell on 12 days; the total fall, 3·19 inches, being 0·56 inches under the average of the month for the previous ten years, and 1·40 inches under the previous three years. The greatest fall in 24 hours, 1·55 inches, was on the 9th. The total amount of rain which fell in the year 1881, up to May 31st, was 19° 21 inches, on 65 days.

GARDEN, ORCHARD, AND FARM CALENDAR FOR MAY.

GARDEN AND ORCHARD.—Transplant onions, garlic, eschalots, rhubarb, etc. Sow lettuce, endive, leek, onion, peas, radish, mustard, and cress, cabbage, turnip, carrot, parsley, and pot herbs. Dig beds intended for asparagus. In making beds choose the best soil which the garden affords, the ground must be dug deep, and most plentifully manured. Rhubarb may now be planted in deeply-dug, well manured beds. The onion crop sometimes suffers severely from the ravages of a green grub which is in some soils in large numbers. They come out at night and cut off the young onions level with the surface as if cut off with a knife. Land intended for this crop should be previously examined for these pests, and if possible receive a dressing of soot, which would not only prove very obnoxious to the grubs, but would be a valuable manure for the onions.

Transplant fruit trees and evergreen shrubs. Do not plant too deep: put fine mould among the roots, making it firm, using water copiously unless the soil is wet. Transplant strawberries into leaf mould or well-decayed cow dung, giving them abundance of water during their growing season. In cold situations, protect tropical fruit trees, and throw a little hay over the pine apple plants, with the same object.

FIELD.—Sow vetches, barley, oats, rye, wheat, Lucerne, and other grasses. Cut tobacco. Earth up potatoes. Rye, as green fodder, is much relished by cattle and horses, and if not allowed to go to seed, it will make a good sward for grazing over, being green and succulent during winter and early spring.

JUNE corresponds to December in Great Britain; weather generally cool, with fine clear nights and sometimes heavy dewfall. In June, 1881, the weather was a little colder than usual; the mean shade temperature, 59°·5, being 0°·9 under the average of this month for the previous ten years, and 0°·3 over the last three years. The highest reading in shade, 76°·0, was on the 27th; the lowest on grass, 34°·0, was on the morning of the 21st. The highest barometric reading, 30°·398 inches, was at 9 a.m. on the 28th, and the lowest,

29°·735 inches, at 3 p.m. on the 3rd. The mean barometric reading, 30°·005 inches, was 0°·115 inches under the average of the last ten years. Rain fell on 3 days; the total fall, 0°·04 inches, being 2°·96 inches under the average of the month for the last ten years, and 1°·62 inches under the last three years. The greatest fall in 24 hours, 0°·02 inches, was on the 11th. The total amount of rain which fell in the year 1881, up to 30th June, was 19°·25 inches, on 68 days.

GARDEN, ORCHARD, AND FARM CALENDAR FOR JUNE.

GARDEN AND ORCHARD.—No colonial grown cabbage seeds should be sown until after September, as it runs to seed when the plants are ready to heart. The English seed does not run until the second season, and will therefore heart perfectly. Transplant horseradish, eschallots, rhubarb, strawberries, seakale, etc. Dig over old rhubarb, seakale, and asparagus beds, giving them plenty of good rotten manure. Sow broccoli Brussels sprouts, cabbage, red cabbage, cauliflower, lettuce, endive, peas, English beans, radish, etc. To grow water cresses, dig a trench, as if for celery: turn in abundance of well-decayed manure at the bottom, sifting some fine soil over it, and dibble the cuttings in at a foot apart, give the whole a good watering. Orange trees which are not in good health should have their trunks and large branches scrubbed with a scrubbing brush, and washed clean before the spring growth commences. The surface soil, to the full circuit of the foliage of the tree, should have a dressing

of stable manure. Apple trees affected with American blight should have the earth removed from the roots near the surface, and they should be painted with castor oil or strong Gishurst Compound. Some sorts of apple are "blight proof," and these should have the preference when planting, as far as practicable: and the others should be worked upon stocks which are blight proof. Transplanting fruit trees and vines should be proceeded with vigorously. Prune fruit trees and vines, protect bunches of bananas in cold situations, by covering each with a light bag open at the bottom.

FIELD.—The arrowroot will fill out rapidly as the cold checks the growth at the top. Sow oats, lucerne, rye grass, vetches, prairie grass, etc. Prepare land in warm situations for sowing with maize and planting with potatoes next month. Early sown wheat often escapes rust and other ills which affect later crops.

JULY corresponds to January in Great Britain, and like it, is the coldest month of the year, though the sun has considerable power in the middle of the day. In July, 1881, the weather was warmer than usual, the mean shade temperature, 59°·9, being 0°·6 over the average of this month for the previous ten years, and 1°·0 under the previous three years. The highest reading in shade, 80°·5, was on the 15th; the lowest on grass, 35°·0, was on the morning of the 2nd. The mean barometric reading, 30·217 inches, was 0·076 inches

above the average of the month; the highest, 30·438 inches, was at 9 a.m. on the 3rd, and the lowest, 29·955 inches, at 3 p.m. on the 13th. Rain fell on 4 days; the total fall, 0·45 inches, being 2·72 under the average of the month for the previous ten years, and 1·00 inch under the previous three years. The greatest fall in 24 hours, 0·24 inches, was on the 9th. The total amount of rainfall during the year 1881, up to 31st July, was 19·70 inches, on 72 days.

GARDEN, ORCHARD, AND FARM CALENDAR FOR JULY.

GARDEN AND ORCHARD.—Plant asparagus beds. Sow cauliflowers, carrot, beans, lettuce, endive, radish, spinach, etc. On sowing seeds after rain see that the land is in a friable condition. If too wet it will clog and bind together. The soil should never be walked over or disturbed by sowing or digging the crops until it is sufficiently dry to be friable. Plant out onions and eschalots Three or four days after planting, rake the soil between the rows in dry weather; it will kill thousands of young weeds. Finish pruning fruit trees and vines. Plant out fruit trees and vines, and cuttings of grape vines, and such trees as are propagated in that manner. Graft young orange trees. The Seville orange forms the best stock upon which to graft approved sorts. Prepare land hitherto neglected, that all planting may be finished by the end of next month if possible. Eradicate docks, and

give a dressing of salt to the vines and fruit trees, lightly forking in well-decayed manure where necessary.

FIELD.—Finish planting lucerne. Sow oats, vetches, etc. Prepare land for potatoes, maize, tobacco, sugar-cane, carrots, mangold wurzel, chicory, etc. Plant potatoes and maize. Take up and prepare arrowroot as the crop matures.

HINTS.—Never grow the same crops, nor crops of the same family twice on the same spot, without an intervening crop of a different nature.

Never transplant shrubs, or trees in a growing state. However carefully it may be done the check is dangerous and often fatal.

Let the drainage of the ground be your first care. It is impossible to succeed to any extent with vegetables or flowers, when the water is stagnant in the soil.

AUGUST corresponds to February in Great Britain, and is for the most part cold, but towards the end a rise in the temperature may be noticed. In August, 1881, the weather was a little warmer than usual, the mean shade temperature, 62.7°, being 0.5° over the average of this month for the previous ten years and 0.9° under the previous three years. The highest reading in shade, 83.0°, was on the 29th; the lowest on grass, 39.0°, was on the morning of the 8th. The highest barometric reading, 30.492 inches, was at 9 a.m. on the

7th. and the lowest, 29.653 inches at 3 p.m. on the 22nd. The mean barometric reading, 30.142 inches, was .005 inches higher than the average of the month. Rain fell on 8 days; the total fall, 1.30 inches, being 0.96 inches under the average of the month for the previous ten years. The maximum fall during 24 hours, 0.87 inches, was on the 21st. The total amount of rainfall during the year 1881, up to 31st August, was 21.00 inches, on 80 days.

GARDEN, ORCHARD, AND FARM CALENDAR FOR AUGUST.

GARDEN AND ORCHARD.—Peas sown this month should have a cool aspect. A dressing of salt at this season at the rate of 7 or 8 lbs. to the perch would be a great advantage to most soils, tending to sweeten the land, destroy insects, discourage weeds, fungus, and mildew, and to retain moisture. Sow beet, broccoli, melons, Brussels sprouts, cucumber, lettuce, endive, okra, parsley, pumpkins, vegetable marrow, radish, rhubarb, round spinach, tomato, tobacco, carrot (large sowing), leek, cabbage, cauliflower, chervil, turnip, parsnip, etc. Plant out horseradish, rhubarb roots, herbs, sea-kale, asparagus, Jerusalem artichokes, ginger, etc. Destroy weeds while young, and syringe with Gishurst Compound plants which are attacked with aphids. Endeavour to finish planting fruit trees, vines and other plants, as the sun will be gaining power, which will in-

crease the labor and risk. Young orange trees which show too much bloom should have it removed, and should receive a little liquid manure to promote foliage. If any of the orange trees are affected with the aphids, they should be well syringed with a solution of Gishurst Compound, or of water in which a small quantity of soft soap and sulphur have been dissolved. Graft China pears, as they break very early. Any work left over from last month should be completed. Keep the land clean and the surface open to receive the dews and showers.

FIELD.—Keep the crops clean. Plant potatoes, maize, rice, yams, arrowroot, etc. Hoe up potatoes. Sow sorghum, imphee, teosinte, and tobacco. Silk worms will now require constant attention, feeding them frequently with young and tender leaves.

SEPTEMBER corresponds to March in Great Britain. In September, 1881, the weather was cooler than usual, the mean shade temperature, 66° being 0°9' under the average of this month for the previous ten years, and 2°4' under the previous three years. The highest reading in the shade, 85°, was on the 13th; the lowest on grass, 44°, was on the morning of the 5th. The highest barometric reading, 30°46 in., was at 9 p.m. on

the 7th, and the lowest, 29°610 in., at 3 p.m. on the 23rd. The mean barometric reading, 30°094 in., was °015 in. over the average of the month. Rain fell on twelve days; the total fall, 2°51 in., being °054 in. over the average of the month for the previous ten years. The greatest fall in the twenty-four hours, °091 in., was on the 1st. The total rainfall for the year 1881 to September 30th was 23°51 in., on ninety-two days.

GARDEN, ORCHARD, AND FARM CALENDAR FOR SEPTEMBER.

GARDEN AND ORCHARD.—As summer grass and other summer weeds now make their appearance, it is important to keep the land thoroughly clean. Take every opportunity to collect manure of all kinds, to be thrown into well-puddled tanks to rot down for use in autumn and winter. Valuable lessons may be learned from the Belgian farmers upon this important but much-neglected subject. The Japanese are also vastly superior to us in the knowledge and practice of manuring. During the summer months in this colony manure should generally be applied in the liquid form. See that crops are not planted too closely so as to be crowded. Trench vacant land, in preparation for future crops, leaving the surface rough, to mellow by exposure. Sow English and French beans, parsley, beet, capsicum, chilli, cardoons, mustard, cress, lettuce, endive, eggplant, okra, Cape gooseberry, radish, rhubarb, round spinach,

tomato, tobacco, cucumber, melons, pumpkins, vegetable marrow, carrots, parsnips, etc. Transplant cabbages, cauliflower, eschaloats, etc. Plant Jerusalem artichokes, rhubarb roots, herbs, sea-kale, asparagus, ginger, earth nuts, etc. Sow rosella. In dry weather give recently planted fruit trees sufficient water at the roots, leaving the surface to be kept damp by a mulching of stable litter. Destroy all caterpillars that infest the vines about this time. Attend promptly to the disbudbing of grape vines: removing all suckers and superfluous shoots as soon as they appear. Tie up fruiting shoots to the trellises as they advance. Plant out strawberries. Graft apples and pears.

FIELD.—Keep the land clean and loose among growing crops. Plant arrowroot, yams, sweet potatoes, tobacco, etc. Sow Imphee, sorghum, and maize for green fodder.

OCTOBER corresponds to April in Great Britain; the weather begins to be unpleasantly hot, with occasional thunder and sometimes heavy hail storms. In October, 1880, the weather was a little cooler than usual, the mean shade temperature, 70°·3', being 0°·9' under the average of this month for the previous ten years, and 2°·0' under the average of the previous three years. The highest reading in shade, 91°·0', was on the 4th; the lowest on grass, 46°·0', was on the morning of the 6th. The mean barometric reading, 30·004 inches, was ·071 inches under the average

GARDEN, ORCHARD, AND FARM

GARDEN AND ORCHARD.—Keep the crops clean, much them and give water where necessary. Sow parsley, English beans, French beans, mustard, cress, lettuce, endive, okra, radish, round spinach, beet, vegetable marrow, melon, carrot, cucumber, tomato, rosella, etc. Sow St. John's Day cabbage, which is the best for summer culture, being early, hardy, of fair quality, and notwithstanding heat, dry weather, and aphid, better than any other. Convert all waste vegetables into manure in some form: either to feed pigs, or throw them into the tank to rot, or burn them out of the way, and use the ashes. Thin out the fruit on China peaches of all kinds, and carefully eradicate the suckers which spring from the root, cutting them close to their origin neatly with a knife. Remove also the strong waterly shoots which fill up the inside of the tree, so as to admit sun and air,

of the month; the highest, 30°·270 was at 9 a.m. on the 8th, and the lowest, 29°·618, at 3 p.m. on the 22nd. Rain (which varies much in quantity during this month) fell on 18 days; the total fall, 9·35 inches, being 6·94 inches over the average of the month for the previous ten years. The greatest fall during 24 hours, 2·43 inches, was on the 26th. The total rainfall for the year 1880, to 31st October, was 38·68 inches, on 111 days. Heavy rains, with thunder, lightning, and strong winds, were frequent. Hail fell on several occasions.

CALENDAR FOR OCTOBER.

and leave the whole strength of the plant to mature the crop. Support the branches of the trees, as the fruit swells. Examine the orange trees and if either thrip, smut, coccos, or fungus appear on the stems, scrub them as recommended in June. Tie up the vines as they grow, being careful not to injure the foliage (which performs the function of both lungs and stomach for the plant), and see that the fruit is sufficiently protected from the direct rays of the sun. Sulphur the vines upon the first appearance of Oidium. Plant bananas and pine apples. Trench and drain the land intended for planting with fruit trees in the winter; and if well cultivated, one crop taken from it would improve its texture.

FIELD.—Clean and earth up growing crops. Plant yams, earth nuts, coffee, arrowroot, ginger, sweet potatoes, and sugar-cane. Sow sorghum, imphee, etc.

NOVEMBER corresponds to May in Great Britain. Summer has now fairly set in, and the heat begins to be oppressive; though the nights on elevated positions are cool and pleasant. In November, 1880, the weather was a little warmer than usual, the mean shade temperature, 77°-2°, being 1°-3° over the average of this month for the previous ten years, and 0°-6° under the average of the previous three years. The highest reading in shade, 100°, was on the 15th; the lowest on grass, 53°-0°, was on the morning of the 10th. The mean

barometric reading, 29.930 inches, was .019 inches below the average of the month; the highest, 30.174 inches, was at 9 p.m. on the 7th, and the lowest, 29.699 inches, at 3 p.m. on the 15th. Rain (which varies much in quantity during this month) fell on 9 days; the total fall, 5.78 inches, being 1.54 inches over the average of the month for the previous ten years. The greatest fall during 24 hours, 2.67 inches, was on the 6th. The total rainfall for the year 1880, up to November 30th, was 44.46 inches, on 120 days.

GARDEN, ORCHARD, AND FARM CALENDAR FOR NOVEMBER.

ARDEN AND ORCHARD.—As the season advances the advantage of having trenched the garden land will become more apparent. Shallow unmanured land will scarcely grow anything worth collecting in hot dry weather. At this season the beds should have the ridges laid across the hills in sloping ground, so as to catch the showers. Thin cucumber and melon beds where overcrowded, and loosen the soil if it is bound. Fasten down the shoots with wooden pegs so as to cover the ground evenly; it steadies the plants and protects them from much injury from wind during storms. Sow French beans, melons, Brocoli, Brussels sprouts, mustard, cress, cucumber, lettuce, endive, celery, okra, radish, rosella, pumpkins, etc. Thin the early peaches as soon as the fruit is fit for cooking. Mulch the trees a considerable distance around the stems. Clear out all superfluous shoots to throw the whole strength of the plant into the crop: not injuring

or removing any of the foliage unnecessarily. Remove suckers from grape vines, stop straggling branches, and rub off weak ill-placed shoots. Vigorous old Isabella vines, upon having the ripest of the present season's rods pruned during this and next month, will give a second crop of fruit. The cuttings, also, if planted, will form strong roots before the planting season. Apricots and China peaches should be budded. Plant banana and pine apple suckers. Trench land intended for planting next season, to give it the sweetening influence of the summer's sun.

FIELD.—Keep the land clean with the horsehoe. Stop tobacco plants as required, to direct the sap into the leaves intended for the crop, and remove caterpillars. In making oat hay, cut the crop when well in ear, but before the seed is near mature; the whole plant is then in the most nourishing condition.

DECEMBER corresponds to June in Great Britain. It is a month of usually fierce sunshine and cloudless skies; the nights are sometimes pleasantly cool. In December, 1880, the weather was a little cooler than usual, the mean shade temperature, 77°·6', being 0°·6' under the average of this month for the last ten years, and 2°·6' under the previous three years. The highest reading in shade, 99°·0', was on the 16th: the lowest on grass, 59°, was on the morning of the 22nd. The mean barometric reading, 29·977

inches, was 0·153 inches under the average of the month; the highest, 30·196 inches, was at 9 a.m. on the 20th, and the lowest, 29·749 inches, at 3 p.m. on the 8th. Rain (which varies much in quantity during this month) fell on 13 days; the total fall, 4·66 inches, being 1·78 inches under the average of the previous ten years. The greatest fall during 24 hours, 1·94 inches, was on the 8th. The total rainfall for the year 1880 was 49·12 inches, on 133 days.

GARDEN, ORCHARD, AND FARM CALENDAR FOR DECEMBER.

GARDEN AND ORCHARD.—The seeds should be protected during the summer months from the direct rays of the sun by some light cover a foot or two above the ground. Thin calico or light open brushwood, not too dense, would be suitable. If the seed beds were well watered with liquid manure, so as to thoroughly soak the soil, a few hours before sowing the seed, and the latter was covered by sifting over it some stable litter, there would not be many failures even in summer. Sow cabbage, cauliflower, French beans, mustard, cress, lettuce, endive, okra, radish, etc. All vacant land should be well manured and dug two spits deep. Manure and dig as the crop comes off, and the land will be ready for planting after the first shower. Place straw under the peach trees upon which the fruit may fall without bruising. Straggling wood shoots should be stopped,

to keep the trees in form, and prevent the weaker branches being robbed of their share of nourishment. Trench and manure land intended for planting with fruit trees or vines. On the slightest appearance of Oidium among the vines, or American blight among the apples, dress them as previously directed. Those who object to the use of sulphur and lime in their dry state may boil one pound of sulphur and one pound of lime in a gallon of water for half-an-hour; one pint of this, when strained, may be mixed with ten gallons of water, and applied to the affected vines with a syringe.

FIELD.—Keep crops clean. Dig potatoes as soon as ripe, as they will not keep in the soil; and have them collected as they are dug, or the sun will cause them to rot. Plant maize.

From this Table the time of High Water on any day during 1882 for the Ports mentioned may be found.

RULE.—To or from the time of High Water at Brisbane Bar for the given day (to be found in the Calendar on previous pages) add or subtract the constant (tide interval).

EXAMPLE.—To find high water A.M. and P.M. at Wide Bay on March 19, 1882 :—High Water at Brisbane Bar on that day is 9.27 a.m., and 9.48 p.m., subtract the constant for Wide Bay 1.35, and the result is 7.52 a.m. and 8.13 p.m.

THE COLONY OF QUEENSLAND.

THE Colony of Queensland, the youngest of the Australian dependencies—its separate existence dating only from December 10th, 1859—comprises the whole of the North-Eastern portion of the Continent of Australia; its boundaries being—on the North the Gulf of Carpentaria, on the East the Pacific Ocean, on the West the Northern Territory of South Australia—the dividing line being the 141st meridian of longitude from the 29th to the 26th parallel, and thence the 138th meridian—and on the South the Colony of New South Wales. Its estimated area, according to a corrected return, is 669,520 square miles, or 423,492,800 square aeres, being about twelve times the size of England and Wales. On August 1, 1879, this area was considerably increased by the annexation of a number of islands contiguous to the Coast. Its extreme length from N. to S. is 1300 miles, its breadth 800 miles, the coast line being about 2500 miles.

PRINCIPAL STATISTICS OF THE YEAR 1880-81.

POPULATION.—The population of Queensland according to the census taken in April, 1881, was 218,519 persons; this is exclusive of the aboriginal population, but inclusive of Chinese. On December 31, 1880, it was estimated at 226,077. 134,216 males, 91,861 females. The discrepancy between the census and estimated figures is accounted for by departures of Chinese overland, of whom no account is taken. During the year there were registered 8196 births, 3017 deaths, and 1547 marriages.

REVENUE AND FINANCE.—The revenue for the year ending June 30, 1881, was £1,771,251 9s. 5d., being an increase on the previous year of £288,160 16s. 4d., or if the balance of Railway Reserve fund transferred to Revenue, be included, an increase of £410,864 15s. The principal heads of revenue and comparison with 1879-80, were as under:—Customs, £528,795 1s. 10d., an increase of £45,041 19s. 2d.; Excise, an increase of £7584 13s. 9d.; Licenses, £35,087 11s. 3d., an increase of £164 3s. 9d.; Land Revenue, £435,064 5s. 7d., an increase of £145,654 12s. 7d.; Pastoral Rents, £175,837 19s. 4d., an increase of £15,688 18s. 10d.; Stamp Duties, £49,311 5s. 7d., an increase of £4,726 15s.; Postal, £49,535 2s. 3d., a decrease of £1,823 6s. 7d.; Harbor and Light Dues and Fees, £16,267 4s. 2d., an increase of £43 8s. 2d.; Telegraphs, £38,134 9s. 11d., an increase of £3,814 14s. 11d.; Railways, £288,570 10s. 8d., an increase of £43,971 18s. 11d.; Office Fees, £13,579 5s. 8d., an increase of £2,434 12s. 2d.; Fines and Forfeitures, £2,531 10s. 9d., a decrease of £350 6s. 2d.; Miscellaneous Receipts, £77,429 18s. 6d., an increase of £18,022 19s. The Expenditure for the year was £1,757,653 18s. The Dr. Balance on July 1, 1880, was £239,006 12s. 7d., and the Expenditure for the year ended June 30, 1881, was £1,757,653 18s., making the sum of £1,996,660 10s. 7d. The Revenue for the year ended June 30, 1881, was £1,771,143 5s. 4d., and the balance of Land Sales transferred from Railway Reserves to Consolidated Revenue was £252,525, a total of £2,023,668 5s. 4d., leaving a surplus balance of £27,007 14s. 9d. The estimated Revenue for the year 1881-82 is £1,901,000; the estimated Expenditure is £1,835,754, leaving a probable balance in favor of Revenue of £65,246.

THE PUBLIC DEBT OF THE COLONY is £13,245,086, the annual interest payable thereon being £601,869; incurred principally for public works and immigration.

EXPORTS AND IMPORTS.—During 1880 the Exports amounted to £3,216,999, being £14 4s. 7d. per head of population; and the Imports to £2,881,555, being £12 14s. 11d. per head. THE Queensland Branch will be a Local Institution, and all moneys accumulated will be invested by the Directors in the colony.

By the establishment of the National Mutual, principles of liberality and equity to Policy Holders—never previously offered in any part of the world—were introduced, thus inaugurating a new era in Life Assurance practice. The success of the Association has been such that £33,248 has been divided among the Members as the result of eleven years' operations; and Offices have been established in Melbourne, Sydney, Adelaide, Perth (W.A.), Wellington (N.Z.), Hobart, and Brisbane, forming a complete federation of the Australian Colonies.

Examples of Reversionary Bonuses already allotted to Policies 11 years in force.

No. of Policy.	Age at Entry.	Amount Assured.	Bonuses added.			Total amt. now assured		
36	31	£300	£72	11	8	£372	11	8
33	36	1,000	235	16	2	1,235	16	2

23	44	1,000	229	7	7	1,229	7	
27	45	100	22	13	11	122	13	11

A Division of Profits is made every Three Years. Age taken at nearest birthday. All members may pay at rate for age.

Residence free as far north as Townsville. No travelling restrictions.

Every person who can afford it should have a Policy in this prosperous and rapidly increasing Association.

Prospectuses and Forms of Proposal may be obtained at the Office, or of any of the Agents.

Loans granted on Policies with Personal Security.

Note the name—

THE NATIONAL MUTUAL.

Agents wanted to represent the Association in all the Towns of Queensland.

A. S. BEAN, Resident Secretary.

REGISTRATION OF BIRTHS, MARRIAGES, AND DEATHS.

Every birth must be registered within sixty days, and every death within thirty days next thereafter respectively; and neglect of this regulation renders the parties, whose duty it is to register, liable to a fine not exceeding £10. If sixty days have elapsed from the date of birth, the law requires the parent, or other person making the application to register such birth, to pay a fee of two shillings and sixpence, and to make a solemn declaration of the facts before a Justice of the Peace, prior to the registration. If possible, in all cases, the father or mother ought to sign as informant. If unable to write, let a mark be made. No birth can be registered after three years have elapsed from the date thereof; but a record will be made in the Registrar General's office if information be supplied respecting such a birth.

Every minister who has celebrated a marriage shall, within one month thereafter, transmit (in accordance with the Act 2s Victoria No. 15) the original certificate to the Registrar of the District, and every Minister who shall fail to transmit the certificate to the District Registrar shall be liable to a fine of not less than £10 and not exceeding £50. Marriages must be solemnised between the hours of 8 a.m. and 8 p.m. Persons under age must produce the written authority of parents or guardians, signed by them in the presence of a Justice of the Peace, Registered Minister, or District Registrar, or the marriage cannot take place.

In every case of burial, the minister officiating person ought to receive from the undertaker or person having charge of the funeral, a certificate from the District Registrar, certifying the registration of the death—unless in the case of inquest, when a certificate from the Coroner or Magistrate holding the inquest will be sufficient; and if any dead body shall be buried without such certificate, the person who may bury the same, or perform any funeral or religious service for the burial, or who shall in any way dispose of the body, shall forthwith give notice of the facts to the District Registrar; and undertakers are bound under a penalty not exceeding £10 to lodge with the District Registrar, immediately after the burial, a Certificate of such burial signed by themselves, and countersigned by two witnesses.

SIGNALS IN USE AT BRISBANE OBSERVATORY.

FOR DENOTING THE MOVEMENTS OF VESSELS.

The Numbers of the Flags may be easily recognised from their comprising as many divisions or stars as they are intended to represent. Any number higher than nine is indicated by one Flag over another—3 over 5 indicating 35 (Clarence River). When two of the same figure require to be shown, as 11 or 22, the White Flag is used to indicate the second number—11 (Cork), would be shown by the Flag for 1 and the substitute beneath it.

DESCRIPTIVE FLAGS.

Blue and Yellow Chequer STEAMER
Blue Flag SHIP
Blue Flag with White Square in Centre . . . BARQUE
White Flag with Red Square in Centre . . . BRIG
Red Flag with Yellow Square in Centre . . . SCHOONER
Yellow Flag with Blue Square in Centre . . . CUTTER

ENGLISH MAIL SIGNALS.

The arrival of the English Mail in Queensland or any of the adjoining colonies is denoted by the hoisting of a Flag on the Observatory, which is kept flying for two hours. The colour of the ensign indicates the particular Mail that has arrived, as follows:—

WHITE ENSIGN—Torres Strait Mail.
 BLUE ENSIGN—San Francisco Mail.
 RED ENSIGN—P. & O. Mail (*via* Melbourne).
 WHITE FLAG WITH BLUE CROSS—Orient Steamer at Cape Borda or Adelaide.

The steamers of other firms or Companies are distinguished as under:—

White Flag with P in Centre—Peabody and Co.'s Steamers.
Flag divided diagonally into four parts, each side quarter blue, top and bottom quarter red—A. S. N. Company's Steamers.
Red Flag with letter S in a black diamond in centre—Wm. Howard Smith and Sons' Steamers

DISTINGUISHING PENDANTS.

FIRST—White, with small red circle.
 SECOND—Blue, with white circle.
 THIRD—Red, with white circle.

EXPLANATION OF SIGNALS.

The Numeral Flags show the Port whence the vessel is coming. The hoisting of the Numeral Pendant ABOVE Descriptive Flag shows that two or more vessels of the same description are arriving from the same port.

When only one vessel arrives the signal is kept flying for one hour; when more than one, half an hour is allowed for each signal.

GENERAL RULES.

Inland letters inadvertently posted unstamped or insufficiently stamped, will be forwarded to the destination, but before delivery, double the amount of deficient postage must be paid.

Insufficiently prepaid or wholly unpaid letters posted for transmission to the United Kingdom will be forwarded, but charged with the deficiency, and a single rate (6d.) as a fine.

Any insufficiently prepaid letter posted for the United States of America, will, if a single rate of postage be affixed, be forwarded and charged on delivery, with the postage deficient, and a fine of a single rate of postage; but if it does not bear a single rate of postage, it will be opened and returned to the sender.

Any letter or packet posted for transmission to British Colonies (excepting the Australian Colonies and New Zealand), and to Foreign Countries (a few places excepted), whether sent direct or through the United Kingdom, will invariably be opened and returned to the sender unless it bears the full amount of postage payable thereon.

Insufficiently prepaid or wholly unpaid letters posted for transmission to any of the Australian Colonies or New Zealand, will be forwarded, but charged with the deficiency, and a single rate of postage as a fine.

Letters, packets, and newspapers on being *re-directed*, are charged the same amount of postage in addition to the original postage, as would be payable if such letter, packet or newspaper were originally posted at the place of re-direction.

A postmaster may refuse to receive or transmit by post any letter, packet, or package of newspapers, exceeding sixteen ounces in weight, or of inconvenient form or dimensions, or containing, or reasonably suspected to contain, any article likely to injure the other contents of the mail bags or any person.

On General Holidays the Offices are only open from 9 a.m. to 10 a.m., and there is only one delivery by letter carrier. Country and other mails that usually close in the afternoon or evening, close at 9 a.m. unless otherwise intimated.

PRIVATE LETTER BOXES.

These may be obtained on the following terms, viz.:—

Without lock, £1 1s. per annum, payable half-yearly in advance

With Lock, £1 5s. per annum, payable in advance, and a deposit of 15s. when box is applied for, of which amount 10s. will be returned, when use of box is discontinued, provided the box is in good order and Keys (triplicate) are given up complete. If the lock is rendered useless by loss of the keys or by any damage, the whole amount deposited will be forfeited. A new lock and keys will be supplied at any time, if required, on additional payment of 7s. 6d.

PRIVATE BAGS.

Settlers, upon Mail Routes, requiring the accommodation of a private bag, can obtain the same from either of the two Post Offices next to them on payment (in advance) of a sum not exceeding Two Guineas per annum to the Postmaster who has to make up the bag, subject to the following regulations, viz.:—

(1) The bag must be of leather, and provided at the cost of the person requiring it. (2) The Postmaster will close and seal it securely before despatching it; and it must be returned in like manner, sealed with some seal, the impression of which is known by the Postmaster. (3) The bag may contain letters for all persons who give *written authority* to the Postmaster to enclose them. The person paying for the private bag is responsible for the postage of all unpaid letters, and for the receipts for all those which may be registered.

NEWSPAPERS.

Newspapers are transmitted within the colony, and to the neighbouring colonies, free of charge, if posted within seven days of the date of publication; if posted after that period, one penny each. Newspapers received from beyond the colony, in monthly parts, are (when re-posted) subject to a charge of 1d. for every number contained therein.

Newspapers to be sent without a cover, or in a cover open at both ends, but without enclosure, mark, or communication, other than the words "Newspaper only," the printed name, occupation, and address of the publisher or vendor, in addition to the name, occupation, and address of the person to whom sent, otherwise they will not be transmitted. Newspapers re-posted in the colony must be prepaid, 1d. each.

BOOK AND OTHER PACKETS.

Bankers' packets, containing notes, orders, cheques, pass-books, returns or other periodical statements (with the contents legibly endorsed thereon, signed by an officer of the Bank), packets con-

taining process of, or proceedings or pleadings in any Court, briefs, cases, and instructions for counsel and their 'opinions thereon respectively, deeds, affidavits, policies of insurance, letters of attorney, depositions or recognizances, patterns or samples of merchandise, having no intrinsic value, either menelosed or enclosed in transparent bags, or in bags tied round the neck so as to be easily loosened and re-fastened, prices current and catalogues, vouchers or returns, or copies of returns, made by or to any officer in the public service, Acts of the Queensland or Imperial Parliament, or printed Votes and Proceedings of either House of Legislature, medical diplomas, certificates (partly written and partly printed), writing paper, envelopes, scrip, pamphlets, maps, plans, specifications, music, photographs (on paper), magazines, reviews, placards, almanacs, prospectuses, paintings, engravings, printers' proofs or periodical publications other than newspapers, printed or plain books, seeds, (in transparent bags or papers, tied so as to be easily loosened and re-fastened, not exceeding 16 ozs. in weight), printed circulars, and circulars produced by the Fac-similegraph, Multigraph, or any other process by which a number of fac-simile copies can be made, can be sent through the Post Office at the undermentioned rates:—

For Queensland—			For the Australian Colonies—		
Not exceeding 2 ozs.	..	1d.	Not exceeding 1 oz.	..	1d.
Above 2 ozs. but under 4 ozs.	..	2d.	Not exceeding 2 ozs.	..	2d.
Above 4 ozs.	..	3d.	Not exceeding 4 ozs.	..	4d.
Every additional 2 ozs. or part thereof	1d.		Every additional 4 ozs. or part thereof	4d.	

NOTE.—The books or packets must be in covers opened at the ends or side for inspection, have the contents legibly marked, must not exceed 3 lbs. in weight, nor the dimensions of two feet in length, by one foot in width and depth, and must not contain any letter or writing save the address and the name and address of the sender. Packets in which these rules are infringed, or which are posted insufficiently stamped, will be returned to the sender, except in the case of the United Kingdom, where short postage will be charged and also a fine on delivery.

MONEY ORDERS.

MONEY ORDERS may be obtained between the hours of 10 a.m. and 3 p.m. (except on Saturdays, when the offices close at 12 o'clock), and made payable at any Money Order Office in the colony, on payment of the following charges:—

QUEENSLAND.—For any sum not exceeding £2, threepence; above £2 but not exceeding £5, sixpence; above £5 but not exceeding £10, ninepence; above £10 but not exceeding £10, one shilling.

INTERCOLONIAL.—New South Wales, South Australia, Victoria, New Zealand, Tasmania, Western Australia.—For any sum not exceeding £5, one shilling; exceeding £5 and not exceeding £10, two shillings.

BRITISH.—At any Money Order Office in the United Kingdom.—For any sum not exceeding

£2, one shilling; exceeding £2 and not exceeding £5, two shillings and sixpence; exceeding £5 and not exceeding £7, three shillings and sixpence; exceeding £7 and not exceeding £10, five shillings.

GERMAN EMPIRE, HELIGOLAND, AND SWITZERLAND.—Under £2, two shillings; under £5, five shillings; under £7, seven shillings; under £10, ten shillings.

HONG KONG (including Macao and British Post Offices in China), viz.:—Hoihow, Swatow, Amoy, Foochow, Ningpo, Shanghai, and Hankow and Yokohama, (Japan) same as British rates.

No order will be issued for more than £10. Payment of a Money Order must be obtained before the end of the sixth calendar month after that in which it was issued.

Money Orders may be transmitted by Telegraph between all Money Order Offices in Queensland, and between Queensland and any Money Order Office in New South Wales, Victoria, South Australia, and Tasmania, having telegraphic communication, on payment of the usual telegraph charge for a message, in addition to the Money Order Commission.

NOTE.—It is necessary for the sender of the money to advise the person to whom the money is sent by telegraph.

POSTAL NOTES.

POSTAL NOTES are now issued of the following classes and value:—

One shilling note, printed with green ink	..	1d.	Five shilling note, printed with blue ink	..	2d.
Half-crown note, printed with red ink	..	1d.	Ten shilling note, printed with lilac ink	..	3d.

Every note is payable to bearer on demand, unless crossed. The shilling note is backed by a telegraph form, which, when filled up with a message of ten words, will be received at any telegraph office, and transmitted to any station within the Colony as a paid telegram.

ELECTRIC TELEGRAPH.

The Telegraph Stations in Queensland are open to receive messages from 9 a.m. to 6 p.m. daily Sundays and holidays excepted. On Sundays, Good Friday, and Christmas Day the officers are in attendance from 9 to 9.30 a.m., and on Government holidays from 9 to 10 a.m., and 5 to 6 p.m. for the receipt and despatch of telegrams of urgent importance. The following are the ordinary charges:—

Between any two stations in the colony—			To stations in South Australia (exclusive of the Overland Line)—		
Ten words (exclusive of name and address of sender and receiver)	..	1 0	Ten words	..	3 0
Each additional word	..	0 1	Each additional word	..	0 3
To stations in New South Wales—			To stations on Overland Line, S.A.—		
Ten words	..	2 0	Ten words, according to distance, 5s. to	..	13 0
Each additional word	..	0 2	Each additional word	..	5d. to 1 0
To stations in Victoria—			To stations in Tasmania—		
Ten words	..	3 0	Ten words (only ten words are allowed free for address and signature)	..	8 0
Each additional word	..	0 3	Every additional word	..	0 9
To stations in New Zealand—			To stations in West Australia—		
Ten words (address and signature are counted as part of the message)	..	10 6	Ten words	..	4 0
Each additional word	..	1 0	Every additional word	..	0 4

Press messages are charged one-half the ordinary rates (except to the colony of New Zealand) and are exempt from the additional charge of transmission after ordinary office hours.

Messages tendered for transmission must be written with ink in a legible manner, in plain language on the proper form, and signed by the sender.

Payment of all charges in advance will be required, except the following: Replies to interrogatory messages which contain the words "*Reply paid*;" messages for transmission within the colony of Queensland, or to any of the Australian Colonies and New Zealand, marked "*Collect*," when the sender is known to the officer in charge of the despatching station, and guarantees in writing, that in the event of the message not being paid for on delivery, it will be paid for on demand by the sender; in all such messages, the word "*Collect*" must be written by the sender as the last word of the message to be despatched; press messages to be paid for at receiving station on delivery.

When the sender wishes to pay for a reply, or to have the message repeated or posted, instructions are to be inserted in the address immediately before the name of the terminal station. Messages which are addressed beyond the limits of delivery can be posted to their destination free of charge.

Messages will be delivered free within one mile of the station to which addressed. If beyond that distance according to the instructions contained in the address. Expenses incurred for portage, cab hire, or boat hire, payable by the receiver, will be charged. Messages addressed beyond the limits of delivery, or which do not contain special directions as to transit, may be posted to their address by the terminal Telegraph Station free of charge. In the event of an interruption to communication by which messages may be unusually delayed, it will be optional with the senders, on application *before transmission*, to withdraw their messages and receive back the amount paid. If desired, messages of consequence can be repeated from stations at which received to stations from which originally sent, on payment of an additional half-rate; but no responsibility will be undertaken nor any claim for compensation entertained for any errors or mistakes in transmission or delay in delivery of messages.

Telegrams to stations within the colony marked "*Urgent*" will be received and transmitted as "*urgent*" messages, and will take precedence of all ordinary messages. Double rates are charged for these messages.

Envelopes containing messages for transmission by telegraph from any place in Queensland, posted at any Post Office not a Telegraph Office, with the words "*Telegraph Message only*" written thereon above the address, and directed to the nearest Telegraph Office, may be forwarded free of postage; and the officers in charge of the Telegraph Office, to which such envelope may be addressed, shall transmit the message contained therein to its destination, provided the full fee, either in cash or postage stamps, be also enclosed.

A list of the Money Order Offices and Telegraph Stations in Queensland will be found in the *Postal Gazetteer* on a subsequent page.

INTERNATIONAL TELEGRAMS.

By the system of registration of name and address, and the adoption of the word scale of charging the cost of telegraphing between Brisbane (and the leading towns in Queensland) and London, and many of the principal cities of India, China, Japan, Europe, United States, and other countries, has been greatly reduced. It may be necessary to explain that the name and address of the sender and receiver being registered at the points of departure and arrival, a single word, letter, or number serves for their identification.

The principal conditions under which messages are transmitted are as follows:—

Words must not exceed ten letters. Only ordinary dictionary words allowed. Groups of figures will be charged at the rate of three to the word. Cypher telegrams may be used, but if so, must be collated, that is, repeated back in their entirety from station to station, for which half-rate additional will be charged.

Registration can be effected at the Central Telegraph Office, Brisbane. No fee is charged. Messages can also be sent through Reuter's Telegraph Co., and the Oriental Co., both of which have agents in Brisbane.

GENERAL NOTES.

Return Tickets, Southern and Western and Central Railways, are available as follows, viz.:—For distances up to 50 miles, upon the day of issue only; over 50 miles, and under 200, three days; 200 miles and over, six days, including the day of issue and collection.

Fares between intermediate stations are calculated at 3d. per mile First-class, and 2d. per mile Second-class. Return Tickets one fare and a-half. Fractions of 3d. as 3d.

Passengers from Milton to Up-country Stations will be charged Brisbane rates.

On Fridays and Saturdays, Excursion Tickets are issued, on application, at single fares for double journey, available until the following Monday. Excursion Tickets issued on Fridays and Saturdays, for distances of 100 miles and over, are available for return up to Tuesday.

Children under 3 years of age, "free"; over 3 and under 12, half-fares.

Passengers may break their journey at any station, provided they inform the station master of such intended break on alighting from the train, and complete the journey within the time allowed.

Season Tickets will be issued on application to the Railway Office, Brisbane, or the Traffic Manager, Rockhampton, for one, three, six, or twelve months, between all stations on the Southern and Western, and Central Lines at greatly reduced rates, which can be learned on application at the before-mentioned offices.

Scholars' Tickets will be issued at half season-ticket rates to pupils attending any Grammar or other Public School, upon application by the master of the school.

Tickets at single fares for the double journey will be issued to pupils at schools (to enable them to visit their homes during the holidays) on application to the station masters.

RESERVED CARRIAGE.—When small saloons or compartments are reserved for any person or persons, the fare will be as follows:—Small Saloon, eight first-class fares; Compartment, four first-class fares.

SPECIAL TRAINS.—The charge for a Special Train will be at the rate of 5s. per mile for distances of 100 miles and under, and 3s. 9d. per mile additional, for distances over 100 miles. Minimum, £10 for 12 first-class passengers.

GAZETTEER OF POST TOWNS,

TELEGRAPH STATIONS, MONEY ORDER OFFICES, SAVINGS BANKS, AND RAILWAY STATIONS.

WITH TIMES OF DEPARTURE OF MAILS FROM BRISBANE.

EXPLANATION.—The name of Post Town or Post Office is first given: then follows its distance and bearings from Brisbane (or other town when specially mentioned); then whether it is a Money Order Office, Telegraph Station, Government Savings Bank, or Railway Station; name of Postmaster or Postmistress; and the Day of Departure of the Mail from Brisbane. When the locality is simply a Telegraph or Railway Station, it will be found indicated by the words "Tel. Station only," or "Railway Station only." Distances are in some cases approximate only.

ABBREVIATIONS.—N. S. E. W. for the points of the compass; Tel. Stn. for Telegraph Station; Ry. Stn. for Railway Station; Mon. Tu. Wed. Th. Fri. Sat. for the days of the week.

The Steamers for the South—Sydney and Melbourne—generally leave the Brisbane Wharves on Tuesdays and Fridays or Saturdays; their times of departure are regulated by the tide: 12 noon is the most frequent hour, the mails closing at 11.15 a.m.; letters can be posted on board to the last moment.

The Steamers for the North—Maryborough, Rockhampton, and intermediate Ports usually leave the Brisbane Wharf on Tuesdays and Fridays or Saturdays. The steamer leaving Brisbane on the Tuesday arrives at Maryborough on Wednesday, Gladstone on Thursday, and Rockhampton on

Thursday night or Friday morning; and on its return leaves Rockhampton on Tuesday, Gladstone on Wednesday, Maryborough on Thursday, and arrives at Brisbane Thursday night or Friday morning.

The regular mail steamers for the North—Cooktown being the terminal Port—leave the A.S.N. Co.'s Wharf, Brisbane, on Saturday mornings at 9.30 o'clock.

Letters for the inland mails can be posted at the General Post Office up to 8 o'clock p.m. When the mails close very early in the morning, the previous day is given.

DIRECTIONS FOR MAKING A WILL.

A WILL cannot be made in language too simple or concise: it must be written with ink, and must be signed at the end of each sheet (if there be more than one) by the testator in the presence of two or more witnesses.

The witnesses, who must not be interested in the will, must strictly comply with every particular required by the attestation clause, at the end of which clause they must sign their names. A witness is not bound to know the contents of the Will.

FORM OF A WILL.

This is the last Will and Testament of me
made this day of One thousand

eight hundred and eighty as follows. I give, devise, and bequeath all my messuages land, tenements, and hereditaments, and all my household furniture, ready money, money secured by life assurance, goods and chattels, and all other my real and personal estate and effects whatsoever, unto my dear wife [or other person as may be] her heirs, executors, administrators, and assigns, to and for her and their own absolute use and benefit, according to the nature and quality thereof respectively, subject only to the payment of my debts, funeral and testamentary expenses and the charges of proving and registering this my Will. And I

appoint my said wife executor of this my Will, and hereby revoke all other Wills.

In witness whereof I have hereunto set my hand the day and year above written.

Signed published and acknowledged by the said _____ as and for his last Will and Testament in the presence of us, who in his presence and at his request, and in the presence of each other, have subscribed our names as witnesses.

A CODICIL.

To a Will is to be made with the same regulations as the Will itself, and may be written thus:—This is a Codicil to my last Will and Testament, bearing date the _____ day of 188____ and which I direct to be taken as part thereof. I give, devise, and bequeath, &c. As witness my hand this _____ day of 188____.

NOTE.—Obliterations and alterations of any sort in a Will ought, if possible, to be avoided; when of necessity made, they must be signed by

the Testator and Witnesses on the margin, or as near to the alteration as possible.

Marriage, after making a Will renders the Will void.

If a witness is interested in the Will the claim to such interest becomes forfeited.

If a person wishes to dispose of all his property in one gift, the words "all my real and personal estate" may be used.

Personal property left without a Will is divisible as under: If the deceased should leave Children and no Widow, the whole property is to be divided equally among the Children. If he leave a Widow and Child or Children, the former is entitled to one-third, and the latter to the remaining two-thirds. If he leave a Widow and no Child, the former is entitled to half, and the next of Kin the remainder as follows:—A Father, the whole amount; if no Father, a Mother, Brothers, or Sisters, or their issue, equal portions; if none, Uncles, Aunts, Nephews, and Nieces, equal portions.

IMMIGRATION ACT OF 1872.

REMITTANCE PASSENGERS.

BRITISH.

PERSONS resident in Queensland, wishing to obtain Passages to the Colony for their Friends or Relatives in the United Kingdom, may do so, by the British India Company's Mail Steamers, under the provisions of "*The Immigration Act of 1872*," by paying to the Immigration Agent in Brisbane, or to any of the Clerks of Petty Sessions in the Colony, amounts in accordance with the following scale:—

Males and Females between 1 and 12, each	£1
Males between 12 and 40, each	 2
Females between 12 and 40, each	 1
Males and Females above 40 and under 55	4
Infants under 12 months	 Free

FOREIGN.

Persons resident in Queensland, wishing to obtain Passages to the Colony for their Friends or Relatives from the Continent of Europe, can obtain Free Passage Tickets, available for any Queensland Immigrant ships leaving London or other British port, or by any of the British India Company's Mail Steamers, on application to this Office, or to any Clerk of Petty Sessions throughout the Colony.

The Nominees in these cases must be under fifty-five years of age, and in sound bodily and mental health, otherwise they will be rejected as ineligible at the port of embarkation.

Any Immigrant landed at a port other than that at which the Nominor resides, will be forwarded to his friends, either by rail or steamer, at Government cost.

Applicants must clearly understand that these Tickets do not include the passage from the Continent to the port of embarkation in Great Britain, the entire cost of which must be defrayed by the Immigrant himself.

# COOKTOWN COURIER.

ESTABLISHED 1875.

THE first established Newspaper in the Cook District is published in Cooktown every Wednesday and Saturday morning.

The *Cooktown Courier* circulates generally among the Miners and Settlers on the Palmer, Hodgkinson, Normanby, Coen, Etheridge, Cloncurry, Charters Towers, Millichester, Rochford, and Ravenswood Goldfields; also in the Pastoral Districts of North and South Kennedy Burke, Cook, Thursday Island, Port Moresby, New Guinea, and Herberton Tinfeld.

The *Cooktown Courier* contains the Latest Telegraphic Intelligence from all localities, as well as reliable Mining News from the various Goldfields and Inland Districts.

It offers to Advertisers the especial advantages of bringing their announcements under the immediate notice of Miners and Settlers throughout the northern districts of Queensland, whilst it also possesses a large local circulation.

A Liberal Discount is allowed to Advertisers for standing Advertisements.

F. C. HODEL, Proprietor.

*Pioneer Journal of the West.*

## “THE ARAMAC MAIL”

IS the Pioneer Journal of the West, and has a large circulation among the Station Owners and Business Men of the Mitchell, Gregory, and surrounding districts. It is therefore an admirable medium for Advertisers who desire to establish or extend their connection with a part of the Colony that is rapidly rising in wealth and importance.

Terms of Subscription, £1 per annum, in advance;  
Twenty-five Shillings, if booked.

# THE SYDNEY MAIL,

And New South Wales Advertiser :

AN ILLUSTRATED WEEKLY BUDGET  
OF LITERATURE, AGRICULTURE, SCIENCE, MINING,  
SPORTING NEWS, AND GENERAL INFORMATION.

**AMPLE PROVISION IS MADE FOR THE FAMILY.** There is the LADIES' PAGE, comprising brightly-written comment on subjects of interest to the sex; the latest London and Parisian Fashion Gossip; short and racy essays on social questions; and varied and valuable Household Hints and Information. In the YOUNG FOLKS' PAGE there is always a genial Story, a collection of Puzzles, and a column of carefully selected Wit and Humour. FICTION has a prominent place in the *Mail*, the best English and Australian authors being laid under contribution.

In regard to SPORTING, that well-known journal *Bell's Life in Australia* is incorporated with the *Mail*. The services of "Nemo," admittedly the most competent writer on Turf matters in the colonies, are permanently retained. Aquatics, which find so natural a home on the splendid waters of Port Jackson, are carefully chronicled by experts; and Cricket, Football, and the minor sports are copiously reported and impartially commented upon.

**PASTORAL and AGRICULTURAL.**—These departments being connected with the staple industries of Australia, are regarded as special features of the *Mail*. Current legislation is carefully considered, so that the interests of Graziers and Farmers may be properly conserved; and new inventions calculated to be useful on Farm or Station receive prompt attention. Novel as well as familiar crops form subjects for comment; and, with a view of helping Australia, the progress of other countries is not overlooked.

**MINING**—The importance of reliable information from mining districts is fully realised by the proprietors of the *Mail*; and to overcome the effects of sensational rumours, special reports, by competent writers, of new fields, are promptly obtained. The first special reports published in Sydney, from Temora, Bermagui, and Mount Browne, were the work of the *Sydney Mail* staff.

A LEADING HORTICULTURIST each week provides Garden directions, which are eminently practical. The usefulness of the Horticultural Department is acknowledged by thousands of amateur and professional gardeners.

THE ILLUSTRATIONS in the *Sydney Mail* are designed by the best Artists in N. S. Wales, and executed by the best available engravers. They represent all current events capable of pictorial treatment, and are a special attraction.

LITERARY MATTERS are especially attended to in the *Sydney Mail*. Original contributions by the best Australian writers—including such names as the Rev. J. E. Tenison-Woods, F.G.S., F.L.S., N. Walter Swan, Henry Kendall, &c., &c.—are constantly appearing in its columns, and from all sources a plentiful selection of the most curious and interesting extracts is chosen and published in each week's issue.

THE LATEST EUROPEAN AND INTERCOLONIAL TELEGRAMS are given in the *Sydney Mail*.

## ALL USE IT.

**I**T is at every picnic and in every kitchen. It gives the finish to every dish. It assists digestion. It has a place at Government House, and is seen at every respectable artisan's. The Protectionists use it because it is colonial, the Free-traders because it is cheap. It is the especial favorite with all classes, because, as one of the Sydney clergymen wrote, "it is the very best yet produced." It is the AUSTRALIAN RELISH, made by WASHINGTON H. SOUL, of 177 Pitt Street, and sold by every storekeeper at One Shilling per bottle.

## THE AUSTRALIAN RELISH.

**P**OSSESSING the most delicious flavor for fish, game, wild fowls, curries, gravies, cutlets, steaks, chops, and roast meats.

Patronised by His Excellency the Governor and Lady Robinson.

### PRICE ONE SHILLING.

The following extracts have been selected from letters received to this date, and the manufacturer respectfully solicits the patronage of the general public of the Australian colonies.

From His Excellency the Governor and Lady Robinson.

"I am directed by His Excellency the Governor and Lady Robinson to return you many thanks for your kind present of six bottles of the Australian Relish; and I am further directed to say that they consider it most excellent. They intend to use it regularly at Government House, and to recommend it to others."

From T. S. Mort, Esq.

"I like your Australian Relish much, for whilst it is a gentle spur to the appetite, it does not appear to have anything in it likely to do harm to the stomach."

From a well-known Clergyman in Sydney.

"I think I am acquainted with all sauces, but your Australian Relish is, in my judgment, the very best yet produced, and is quite distinctive in character."

Sold retail by all grocers and storekeepers throughout the Australasian colonies,

And Wholesale by J. & J. Burns, Brisbane,

And all wholesale houses, and the Manufacturer,

THE LOGAN WITNESS

IS PUBLISHED EVERY SATURDAY MORNING AT BEENLEIGH, QUEENSLAND.

THE Police District of the Logan comprises the whole of the Logan Electorate and part of Fassifern and Bulimba. It has three Courts of Petty Sessions, thirty-four State Schools, and a thoroughly settled population of about 6,500 people. It is, without exception, the finest district in Queensland, for the excellency of its soil, the healthiness of its climate, its regular rains, and its refreshing sea breezes. The LOGAN WITNESS is extensively read upon every homestead, and has a steady and improving circulation throughout the Colony. It is the only recognised ORGAN of the Settlers, and devotes a large portion of its space to the discussion of Local requirements, as well as Sugar Growing and Farming generally, Price, 3d.; 3s. per quarter, payable in advance; 4s. if booked.
